GB-1410 A EASY-ON OGK RATCHET HANDLE

Intrinsically Safe Push Button

Socket is Intrinsically wedged and not fallen unless the button is pushed to release the socket.

Simple but Effective Switch

- easy to reverse the driver.
- switch patented

Neat Head Design

- keep the dirt and contaminants out of the mechanism

More Powerful and Durable

- 72 teeth
- each turn supply 11 teeth contacting with gear
- provide more strength and durability

Precise Process with CNC Machine

In order to form the concentricity and reach the maximum torque, synchronized turning the whole handle by CNC machine

M.R.P. ₹ 2278/-

Forged with High Grade Material

- made from high grade Chrome Vanadium Steel
- enable to apply more torque

Ergonomic Handle Design

- whole ratchet streamline shape design
- comfortable holding on every position
- easy & smooth movement to every position
- offer commodious using in every situation
- offer satisfied feeling by any posture

Non Sparking Tools

Non-Sparking Tools are essential for applications in potentially explosive environments. GB non-sparking safety tools are a premium grade hand tools made from an Aluminium Bronze alloy. Under normal circumstances they should not render a hot spark when they strike, rub or glance off the target material while working under volatile conditions.

All GB non-sparking safety tools are forged rather than casted, guaranteeing maximum tensile-strength.

We supply a wide range of non-sparking tools such as combination spanners, DOE spanners, ring spanners, socket wrenches, pipe wrenches, adjustable wrenches, striking tools, pliers, pipe cutters, wedges, punches, chisels etc. All non-sparking tools are available in Beryllium Copper by request.

Chemical Composition and Properties of Aluminium - Bronze Alloy.

Aluminium-Bronze Alloy Composition

Al	:	8% - 10%
Ni	:	2% - 5%
Fe	:	1.5% - 3%
Others	:	< 0.5%
Rest	:	Cu
Hardness	:	25-30 HRC
Tensile Strength	:	800 N/mm ²
Yield Point	:	450-550 N/mm ²

Salient Features

Among the Salient Features of the alloy that GB Non-Sparking Tools offer :

Property	Application or benefit
Non-sparking	Appropriate for explosive potential environments
Non-magnetic safety	Essential for equipments that require complete non-magnetic safety
Corrosion Resistant	Specially well suited for applications in corrosive environments like encountered in marine works or fire-fighting applications
Ergonomic Designs	The use of bi-material anti-slippery handles, dipping anti-slippery handles, totally ergonomic designs make operations easier, more comfortable and faster.

Main application fields

Petrochemicals, Fireworks Industry, Mines, Refineries, Chemical Industry, Defence Oil Companies, Paper making Industries, Air Force, Gas & oil pipe lines, Flour silos and mills, Navy, Power Stations, Breweries, Weapon & ammunition fabrication, Paint Making, Alcohol processing industries Aerospace industry, Plastic manufacturing, Distilleries, Automobile Industry, Pharmaceutical Industry, Fire-fighters etc.
